Packages used:
Adobe Premier Pro
Adobe Photoshop.

Assets required:
1) Green screen video footage (uploaded)
2) Free audio from bensound.
3) Background image.

Workflow in summary:

1|) Drag the green screen and the image onto the timeline and work on this first.
2) Then drag audio to timeline.
3) Then put in Titles and Credits.
4) Put in transitions
5) Render

Note: You will need to shorten or lengthen some of items on the time line as you progress.

STEP 1:

Create a new folder called "SummerCamp" on the desktop.
Drag the assets above into it.
Open Premier Pro. (How?)

Click on left hand bottom corner.
Then click on "All apps".

In the dropdown menu click on "Adobe CC Suite" and select the purple icon with Pr in it.

Adobe Premiere Pro CC 2015

The Adobe Premier Application opens.
Click the button "New Project".

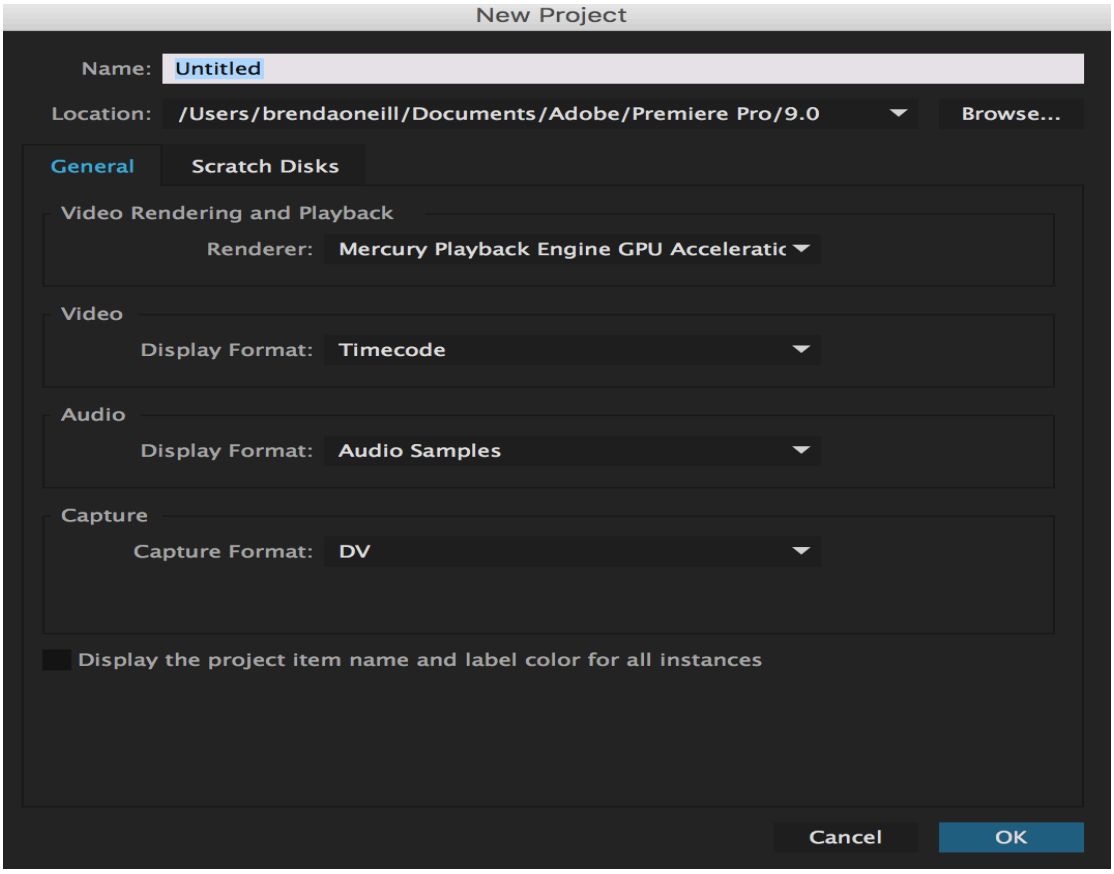
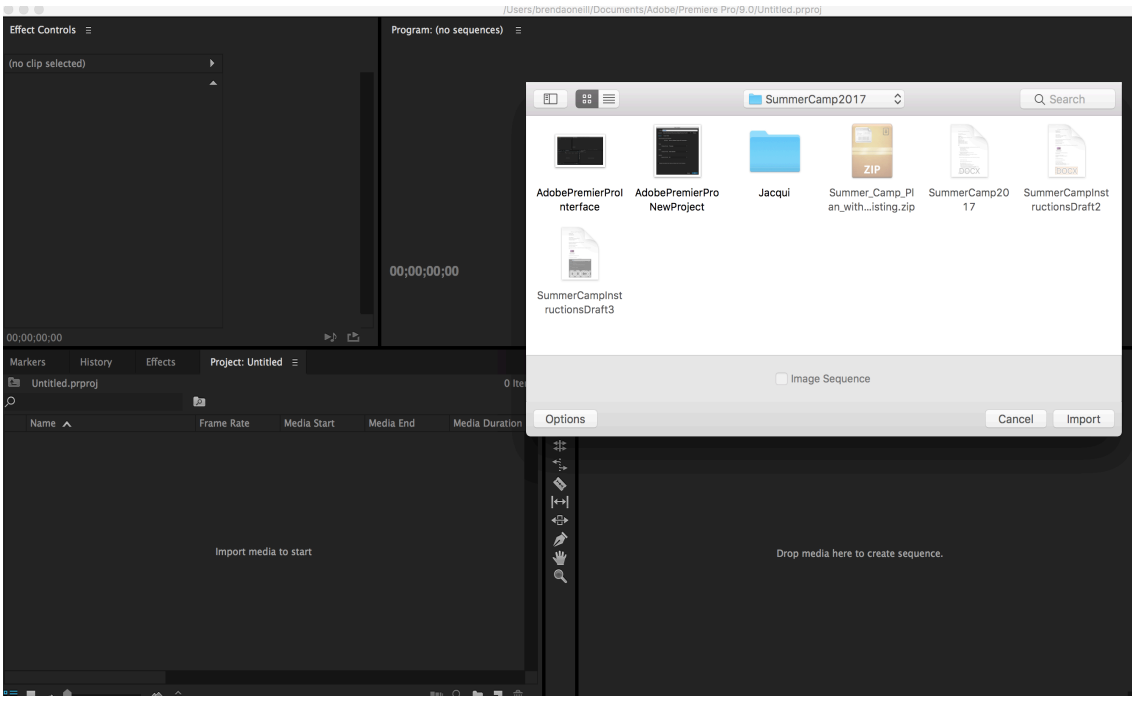
Drop media here to create sequence.



In the “Name” field type SummerCamp2017.
Click OK.
The Adobe Interface opens.

Cick on the “Project” tab.
Go to “File” on the main menu.
Select “Import” from the dropdown list.



Navigate to your desktop folder and select your asset.
Repeat this 3 times to import the 3 asset files.

STEP 2: (PHOTOSHOP)

TREATMENT OF IMAGE….

1) Make sure the background image is the same size as the video.
(How?)

   Right click on the video on the timeline and select "Properties" to see the size measurements. (Take note of them)

2) Open up Adobe Photoshop. (Bottom left hand side. All apps. Adobe CC Suite. Click on the blue icon with PS in it.

Adobe Photoshop
CC 2015

3) Go to "File" on the main menu and click "Open". Then navigate to where your image file is.
Click on the image to open it.

To resize: Go to "Image" on the main menu bar.

From the drop down list click on "Image Size". Change the metrics to pixels.

Type in 3840 in one field.
Type in 2160 in the other field.

Click "Ok".
4) Then click "File" on the main menu bar and "Save As" on the dropdown list. Navigate to your desktop folder. When the ".jpg options" window opens click on OK.
5) Then go to File on the main menu and click on Exit. This closes the Adobe Photoshop application.

STEP 3: SETTING UP THE GREEN SCREEN

MEANWHILE BACK IN PREMIER PRO….

1) Click on the "Effects" tab. On the dropdown list select "Keying" and under this select "Ultrakey".

Click and drag this to the video on the timeline.

2) Go to "Effect Controls" tab. From the drop down menu select "Ultra Key". Select the eyedropper under Key colour to select green of green screen. Your image should appear in the background.

3) You will need to lengthen the image to the length of the video clip. Drag the end of it to the right as needed.

Press the spacebar to play.

STEP 4:

TIME FOR MUSIC…

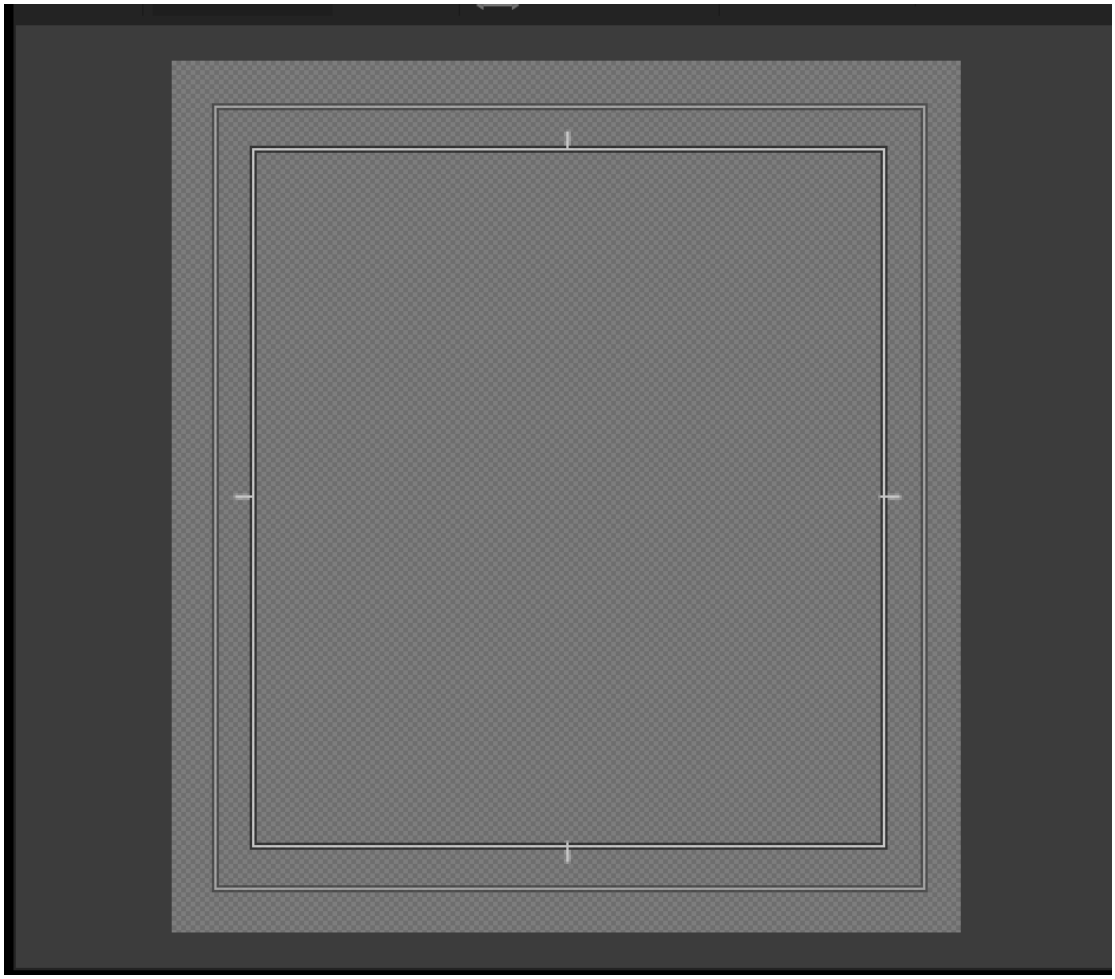
1) Drag the audio track you selected earlier across to the time line.
You will note that it is longer than the video. Shorten it by going to the end of it and dragging back to the left as required.

2) Click spacebar to play.

STEP 5:

TITLE AND CREDITS…
1) Put in a Title. (How?)
Click on "Title" on the main menu bar.
From the dropdown list select "New Title".
Select "Default Roll".
Name it "MyTitle".
The "Title window" appears.
Click on the text tool "T" in the tool box.

Click within the lines of the Title window and type "My WIT Summer Camp experience…".



2) Right click on the text box.
3) Select “Size” from the dropdown menu– make the text bigger.
4) Select a “Style” from the bottom of the title window.

5) Close.

6) Put the newly created title to the front of the video and delete ripple the gap if necessary.

7) CREDIT…
As above but put it at the end of the video clip.

STEP 6:
Transitions…

PUT IN TRANSITIONS between title and credit.

1) Select suitable video transition and drop it on the gap between the title and the video.

2) Select a suitable video transition and drop it on the gap between video and credits.

3) Save your work.

STEP 7:

RENDER THE WORK…

1) Click on File on the main menu bar.
2) Click on Export.
3) Click on Media.

4) Click on Output Name.
5) Navigate to where you want to save it to (your desktop folder).
6) Click Save.
7) Click the Export button.

8) Go out and click on the rendered file and it will play.
